asyCOLD

- ➔ Specialized in **Refrigerated Transport Solutions.**
- ➔ Offering truck bodies equipped with **eutectic plates**
- ➔ The **worldwide reference** for efficient ice cream deliveries
- ➔ The ideal solution for “**multidrop city deliveries**”

asyCOLD

Operation Principle

- ➔ The truck is **plugged into an electric outlet**
- ➔ **Energy is stored in eutectic plates** inside the truck at -35°C
- ➔ **Cold is returned** to the box by the plates slowly thawing
- ➔ At the end of the round, temperature inside the box is still compatible with **frozen transportation**

**Pick-up box for
Isuzu Spark**

asyCOLD

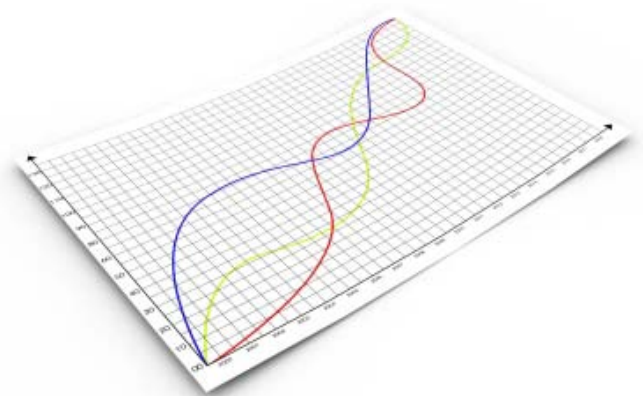

Eutectic Plates Systems

Economy

- ➔ Low operation cost
- ➔ Low maintenance cost
- ➔ Electricity only, can be charged at non-peak hours
- ➔ Long product durability, life time usually more than one chassis

asyCOLD

Reliability

- ➔ Merchandise is preserved in case of vehicle failure
- ➔ No automatic defrost mode needed
- ➔ No air drying
- ➔ Performance at idle and low rev speeds

Safety

- ➔ Worker safety: multi-door solutions
- ➔ In case of vehicle failure or immobilization, load is safe
- ➔ Clean & Safe operations

Autonomy

- ➔ Independent from the vehicle
- ➔ No settings needed
- ➔ No operator intervention needed
- ➔ Up to 60 drops on a route

asyCOLD

Quality of cold

- ➔ -35 ° C
- ➔ No air intake
- ➔ Stable temperature, (eutectic solution, not glycol) trucks stays cold longer
- ➔ No air flow, uniform cold
- ➔ Walls stay cold all week
- ➔ Defrost once a week, as no forced air

Maintenance

- ➔ Almost no maintenance
- ➔ Condensor Unit stays protected at site: no dust, no vibrations
(in case of optional remote unit)
- ➔ No parts in operation during vehicle movement
- ➔ Easy body swap
- ➔ No need to modify the truck engine

Environment

- ➔ Totally silent during operations, once target temperature is reached, no more movement
- ➔ Electricity operation only, zero emission, zero additional fuel consumption
- ➔ Non-polluting, cold preserved even if engine shut down and need to wait
- ➔ Longer life cycle

asyCOLD

“The reference for the world largest companies for multi-drop city deliveries” : some Cold Car customers

ASEAN

- ➔ More than 10 years existence
- ➔ Sales records in 7 ASEAN countries
- ➔ More than 1 000 boxes manufactured

INTERNATIONAL

- ➔ More than 40 years existence
- ➔ Presence in more than 40 countries
- ➔ More than 40 000 boxes manufactured
